## Streaming to your One Flow or Sensia 200D Connect as well as to your Jongo

Technical Support - 2020-11-03 - Jongo

### **Streaming to your One Flow, Sensia 200D Connect or Evoke F4 as well as to your Jongo**

A new software update has been released. This now allows you to select the Sensia 200D Connect and One Flow so you can send audio to and control their volume individually.

**NOTE: This can now only be done using an Android device. It's no longer possible to do this using an Apple device running IOS 11 and up.**
