Anleitungen zur Suche nach Ihrem Avalon 300R verbinden Firmware-Version

Laura - 2021-09-26 - TV / Set Top Box

Check that your Avalon 300R Connect is running the latest firmware to ensure you experience the best from your product.

To check what firmware you have installed press **Menu** on the remote control > **System** (press blue button on the remote control) > scroll with remote control to **system information** > press **select**
